CAREER OBJECTIVE

I am a passionate and dedicated Junior MERN Stack Developer with hands-on experience building responsive web applications using React, Node.js, Express, and MongoDB. My goal is to grow as a full-stack developer and contribute to building scalable, user-friendly applications in a dynamic development team.

SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js

Backend: Node.js, Express.js

Database: MongoDB

Version Control & Deployment: Git, GitHub, Netlify, Vercel, Surge, Firebase

Other Tools: VS Code, npm, Postman, Figma, Pixso, Canva

PROJECTS

1. Neighborly : Local event management.

- Users can post their local event or any kind of event.
- Post managing functionality, edit event details and delete event.
- Joining others event and all joined events can be seen in the joined event section.

Technologies: Tailwind CSS ,React.js, MongoDB, Express.js, Firebase
